Over 4 years of experience working as a front-end developer for web applications.

PROFESSIONAL SUMMARY

Front-end developer with solid experience in building modern, responsive, and high-performance interfaces. Proficient in ReactJS and Next.js, with deep knowledge of Styled Components, Tailwind CSS, Chakra UI, and state management using Redux, Zustand, and Context API.
Experienced with React Query for API consumption and cache management, and Jest for unit testing. Committed to best practices, code quality, and user experience.

Career Highlight:
I contributed to the development and maintenance of the Claro TV+ web application, a streaming service with over 400,000 simultaneous users.
Implemented critical solutions such as:

- Server-Side Rendering (SSR) for performance and SEO optimization.
- Integration with AWS for scalability and cloud infrastructure.
- Development of features like gift cards, checkout page, landing pages, search engine, and modal hierarchy.
- Ensured high availability and seamless experience under heavy traffic.
