PROFILE

I am a front-end developer with extensive experience in creating modern, interactive, and responsive interfaces. I use technologies such as HTML, CSS, JavaScript, and advanced frameworks like ReactJS and Next.js to build scalable solutions focused on user experience. My expertise includes the use of libraries and tools such as Styled Components, Chakra UI, Tailwind CSS, SASS, Redux, and Hooks, ensuring functional and visually appealing designs. I am always seeking to improve my skills and explore new front-end trends to deliver high-performance interfaces.

EXPERIENCE

Frontend Developer at **Agile Content**, São Paulo
August 2021 - Present

- Worked closely with design and backend teams to create an engaging and visually appealing platform, always prioritizing user experience.
- Transformed design concepts into reality using HTML, CSS, and JavaScript, ensuring smooth and efficient applications.
- Collaborated with senior developers, contributing new features and fixing issues in existing web projects.
- Gained valuable knowledge in technologies like React and Redux, implementing functionalities and web applications that add value to the project.
